About Me

An enthusiastic and dedicated student specializing in programming, particularly front-end development. I have a track record of creating websites and applications that are not only functional but also aesthetically pleasing, including developing websites with HTML, CSS, and JavaScript, as well as applications using Dart. With experience in working on relevant projects, I am committed to continuously learning and honing my skills to become a competent professional in the tech industry. Currently, I am seeking an internship opportunity to apply my skills in real-world projects and further develop myself professionally.

Achievements

- Full Merit** 2022 - Present
Scholarship Recipient at Pradita University

Education

- Pradita University**
Major: Business Information Systems (GPA 3.81) 2022 - Present
As a student majoring in Business Information Systems, I achieved a GPA of 3.81. My studies equipped me with skills in data analysis, programming, system development, and project management, which enabled me to effectively bridge business needs with technology solutions.
- Santa Maria Vocational High School**
Major: Multimedia 2019 - 2022
In vocational high school, I majored in Multimedia, gaining skills in graphic design, video production, and animation. Working on various digital content projects honed my technical abilities and creativity, shaping my passion for front-end development and programming.
